PRESTIGE

LINE = BETA  
 MODEL = \_\_\_\_\_  
 L = \_\_\_\_\_  
 H = \_\_\_\_\_  
 Ht\* = H+2cm  
 T = \_\_\_\_\_  
 A = \_\_\_\_\_  
 B = \_\_\_\_\_  
 G = \_\_\_\_\_  
 CO = \_\_\_\_\_

L - Length(cm) = 70, 90, 120, 140, 160, 180, 200

H - Height (cm) = 30, 40, 50, 60, 70, 80

Ht\* = Total height of the radiator = H+2cm

T - Thickness (cm) = 7, 10, 12

A - Wood = 01, 02, 03..., 20

B - Wood, laminated = 01, 02, 03..., 24

G - Graphics = G01, G02, G03..., G18

CO - radiator connection = L, M, R

ORDERING SAMPLE:

LINE = BETA  
 MODEL = DESIGN  
 L = 90  
 H = 60  
 T = 12  
 A = 05  
 B = 02  
 G = /  
 CO = M

RADIATOR CONNECTION: if the connection of the radiator is on the RIGHT (R) side then the thermostatic head is on the RIGHT side of the radiator.  
 If the connection of the radiator is on the LEFT (L) side or in the MIDDLE (M) then the thermostatic head is on the LEFT side of the radiator.
